Position Title **Job Family: NDT Inspector Level 2**

Location Miramar, FL 33027
Hiring/Reporting Mgr Business Leader
Function Production

Propulsion Technologies International, LLC is an Equal Opportunity Employer, offering a great work environment, challenging career opportunities, professional training and competitive compensation.

Role Summary/Purpose

Perform non-destructive tests (NDT) on aircraft engine components. Inspect metallic and nonmetallic materials, parts and assemblies for discontinuities or defects using automated and manual methods and techniques including liquid penetrant and magnetic particle. Understand and follow PTI policies and procedures.

Essential Responsibilities

Level I PTI: Include the following as applicable to the department:

- Ensure that flight safety is our permanent essential concern.
- Maintain communication with the Production Leaders.
- Maintain a clean working environment.
- Follow the work instructions and regulations.
- Participate in team EHS, quality, lean audits and meetings.
- Participate in flow walk presentations.
- Comply with all applicable quality, health, safety and environmental regulations.
- Perform NDT Inspection of aircraft parts to ensure compliance per specified requirements at the incoming, in process and final stages of the process using NDT inspection tool.
- Perform one NDT discipline inspection of one product line.
- Verify all information on P.O. and inform customer service and engineering department of any discrepancies regarding P/N, S/N or Quantity.
- Receive guidance or supervision from a certified Level II or III when necessary.

Level II PTI: In addition to all Level I duties and Responsibilities, a Level II include the following as applicable to the department:

- Perform multiple NDT discipline inspections of one product lines or perform one NDT discipline in multiple product lines.
- Perform NDT inspections in accordance with the scope and limitations of the technique/method used.
- Develop work instructions from approved general procedures to be submitted for NDT Certified Level III for approval.
- Write reports in word, excel and power point.
- Lead and positively influence others in a team based environment.
- Actively participate in team events and work related activities.
- Assist in training, evaluating, and signing all OJT training related forms for new or lower level employees-
- Assist engineering with creating and modifying tools and fixtures
- Assist engineering personnel in testing and evaluating equipment.
- Assist engineering in new process development and lean projects
- Participate in customers presentations.
- Other duties may be assigned.
